

Population Estimates 2010 to 2018

The following information was compiled by the Marion Planning and Development Department with data / information from the US Census and State Data Center of Iowa on May 23, 2019. If you should have any questions please feel free to contact David N. Hockett, Principal Planner at 319-743-6320 or via e-mail at dhockett@cityofmarion.org.

When completing request specifically for regional, state and federal dollar funding, reporting, etc, the question of “what is the population of the community”, the agency is typically asking for the Official 2010 US Census Population and/or certified population, **NOT** the estimate, unless they specifically ask for an estimated current population.

2010 U.S. Census 34,768	2015 Special Census 38,023	July 1, 2018 Estimate 39,979
-----------------------------------	--------------------------------------	----------------------------------------

The March 17, 2015 Special Census only targeted specific high growth areas of the community and was not a community wide population count.

The City of Marion has experienced an estimated population gain of 4,819 people since the April 1, 2010 estimate that represents a percent change of 13.70%. The City of Marion had previously grown 8,474 people (or an average of 847 persons per year) between the 2000 and the 2010 U.S. Census which resulted in a percent change of 32.2% over the 10-year period.

The following table provides the estimated growth by year from July 2010 to July 2018. Please note estimates are always provided for the year prior to this report and are amended by the State Data Center of Iowa every year. If Marion continues to grow at the current yearly average the City will have a population exceeding 40,000 with the official 2020 Census.

HISTORICAL POPULATION DATA

The following information is historical population data that had been provided in past reports for the last decade growth as well as population bench marks reached by the City of Marion.

The table below recent historical data for population by year from 2000 to 2010, estimates were provided by the Iowa Data Center and were revised every year as additional information is collected to create a more accurate estimate.

Estimated Population of Marion Iowa – July 1, 2001 through July 1, 2009 (Revised Estimates) April, 1, 2000 and April 1, 2010 Official Census Numbers)

For historical purposes, Marion’s only population dip in a census year occurred between 1910 to 1920 with the population going from 4,400 to 4,138 (-262). The population shift was likely caused by several events both locally and worldwide including the moving of the County Seat to Cedar Rapids, World War I and a serious national flu epidemic. Additional Marion population benchmarks in a Census year include a population of 5,000 or greater in 1950, 10,000 or greater in 1960, 20,000 or greater 1990 and 30,000 or greater in 2010. Marion will likely reach the 40,000 or greater population prior to the 2020 U.S. Census.

**AMERICAN
COMMUNITY
SURVEY**
 U.S. CENSUS BUREAU

If you are looking for additional data beyond population, please use the American Community Survey Data. The American Community Survey is an ongoing statistical survey by the U.S. Census Bureau, sent to approximately 250,000 addresses monthly (or 3 million per year). It regularly gathers information

previously contained only in the long form of the decennial census. It is the largest survey other than the decennial census that the Census Bureau administers. Census QuickFacts can be found at www.quickfacts.census.gov and data can be searched by County and City.
