

This Pursuit Promise solidifies the intent of both the Student and the Business Partner to enter into a long term mentoring relationship. This document shall not guarantee a student full time employment, but indicates only the business partner's high level of intent and the student's long term interest in continuing to work together.

By signing this, both the Student and the Business Partner indicate they have partnered together through job shadows, internships, project based learning, part-time employment, or a comparable workplace experience to identify joint interest in supporting the development of a career pathway that may lead to full employment with the Business Partner.

This Pursuit Promise requires the completion of an academic and financial plan (found in this document) outlining necessary training and associated costs of equipping the student with the skills he/she needs to be qualified for the position they are pursuing. The plan must also include a timeline for completion. **The plan must be developed as a team by the student's home school district, the business partner, the student, and if applicable the partnering higher education institution.** A copy of the plan must be kept on file by the student's home school district, the Marion Economic Development Corporation, and the supporting Business Partner.

## Partnership Information

First Name of Student: \_\_\_\_\_ Last Name of Student: \_\_\_\_\_  
 Address: \_\_\_\_\_ City: \_\_\_\_\_ State: \_\_\_\_\_  
 Postal Code: \_\_\_\_\_ Phone: \_\_\_\_\_
